Art Unit: 1712

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Deborah M. Altman on July 7, 2006.

Claim 31, line 9, both before and after "polyvinylbutyral;," insert --or-- and lines 17-18, replace "or c) mixtures thereof" with --, or mixtures of such monomers--.

Cancel claims 32-37.

The following is an examiner's statement of reasons for allowance:

2. The 35 U.S.C. 112, second paragraph, rejection has been rescinded based on the redefinition of the species recited in claims 23, 24 and 31 as comprising the individual species or mixtures thereof.
3. The 35 U.S.C. 102(b) rejection over Mueller Patent No. 3,707,347 is withdrawn due to independent claim 17 confined to species of photochromic compound(s) not including the oxazine dye of Mueller.

Art Unit: 1712

4. The 35 U.S.C. 103(a) rejections over Walters et al. Patent No. 6,268,055; Stewart et al. Patent No. 6,432,544 and Japanese Patent No. 60-107030 in view of Mueller, and Takeshita et al. Patent No. 6,057,039 in view of Walters et al. have been overcome by the newly claimed process step wherein residual film is removed from the composition. There is no motivation to remove any portion of the coatings of Walters et al., Stewart et al., the Japanese patent and Takeshita et al. since they are cured and permanently coated onto the lenses such that they are non-removable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
